### Industrial Floor Cleaning Product Guide

Product Description		Pack Sizes
<b>Multiscrub</b>	A versatile medium duty economical low foaming alkaline cleaner recommended for use in daily maintenance cleaning operations through scrubber dryer equipment. Its lower alkalinity makes it particularly suitable for use on sensitive floor substrates	2 x 5L 20L 205L 1000L IBC
<b>Ultrascrub</b>	An economy product for medium to heavy duty soiling. Low foaming alkaline formula capable of removing heavy oil/grease deposits in industrial operations. Excellent in food environments where fats, proteins and starches must be removed	20L 205L 1000L IBC
<b>Neutrascrub</b>	A highly advanced neutral water based semi quick-break degreasing product for cleaning operations in sensitive working environments where alkaline and more aggressive cleaners are undesirable or forbidden such as corrosion control areas. Practically no smell.	2 x 5L 20L 205L 1000L IBC
<b>HD Powerscrub</b>	A low foaming, extreme heavy duty, water based alkaline cleaner for use in remedial cleaning operations using scrubber dryer equipment. Excellent heavy duty emulsifier that can be used in most deep cleaning operations where an aggressive cleaner is required. Use with Remedial Floor Cleaner	2 x 5L 20L 205L 1000L IBC
<b>Bioscrub</b>	An odourless, low foaming, mildly bacterial, multi-purpose floor cleaner designed to provide biocidal activity whilst cutting through biological soiling. Use in food manufacturing & processing plants to remove animal & vegetable fats and in engineering environments where oil breakdown products create malodours	2 x 5L 20L 205L 1000L IBC
<b>Ecocrub</b>	Formulated from renewable sources but with the power of heavy duty cleaning agents. Great environmental profile. Bites through heavy greases, oils, tyre rubber so excellent for heavily trafficked warehouses and industrial areas. Ecocrub is very quick drying so floors are safely back in to commission immediately after cleaning	2 x 5L 20L 205L 1000L IBC
<b>Remedial Floor Cleaner</b>	A heavy duty low volatility, emulsifiable, semi quick-break solvent degreaser for impacted soiling and to remove difficult oils, grease, tar and bitumen from floors. Designed for use as a pre-cleaner on deep ingrained deposits prior to using HD Powerscrub or Ultrascrub	2x5L 20L 205L

	What type of floor needs cleaning?				Type of Industry		Severity of soiling		How to apply		Special Requirements					
	Vinyl	Concrete	Painted Concrete	Granolithic Resin	Engineering & Transport	Food & Food Processing	Remedial Cleaning (Infrequent / 1 off)	Maintenance Cleaning (Regular / Day to Day)	Machine Suitable – Scrubber Dryer	Manual Suitable – Mop and Bucket	High Usage – High Economy Required	Biocidal Activity Required	Heavy Duty Cleaning Required	Heavy Duty Cleaning with Biocidal Activity	Neutral Product Required	Semi Quick-Break Interceptor Protection
