

i-protect[®]

Always on duty,
even if you are not

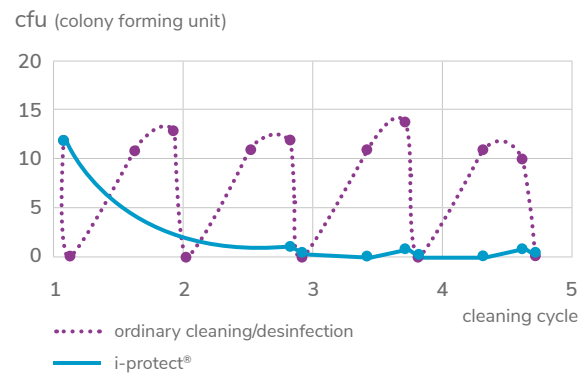

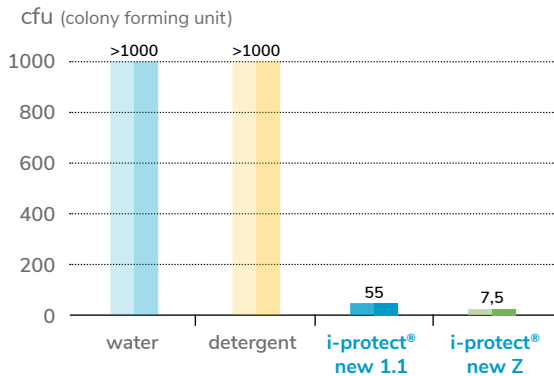

i-protect®

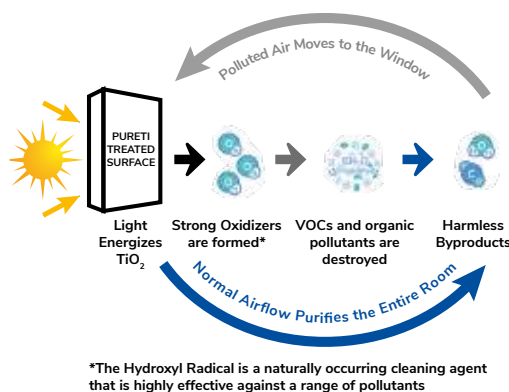

to support your business and your wellbeing

i-protect® powered by nature, is the most innovative line of professional cleaning and protection products that use unique technologies: aXonnite® and Pureti®.

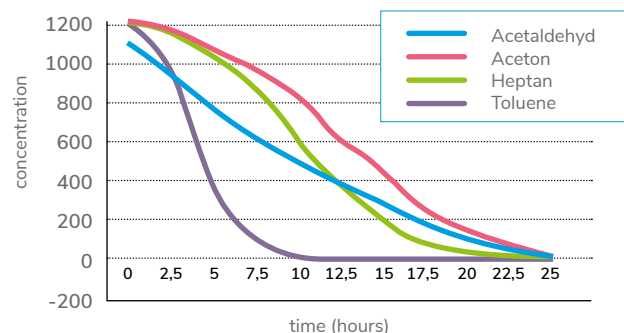

- fragmentation of silver particles in aXonnite® technology leads to unbeatable, long lasting antibacterial effect, thanks to aXonnite® particles and antifungal effect. **i-protect®** powered by aXonnite® delivers long lasting protective results, helps to keep any surface clean and bacteria free, 24/7. Surface protected by aXonnite® is safe and resistant even to so called “super bacteria”, it also prevents from biofilm buildup. aXonnite® makes traditional cleaning safer than ever, leading to a REAL Clean.

- natural or fluorescent light coming through glass, activates Pureti’s photocatalytic TiO₂ particles, using this energy to transform humidity in the air into powerful oxidizing agents that destroy harmful VOC’s and pollutants in the air, then return into being a water vapor. The process repeats itself millions of times per second, until all pollutants are destroyed. Pureti® uses minerals instead chemicals to clean, supporting reduction of a footprint of a chemical, traditional methods.

Reduction in VOCs on PURETI Clean&Fresh Treated Glass

i-protect® powered by nature and aXonnite® and Pureti® technologies perfectly fits into 4D REAL Clean concept, developed by i-TeamGlobal. Thanks to it’s fully sustainable, chemical free technology, **i-protect®** helps to keep all surfaces REAL Clean in many different applications. Please check this out on the next pages, how we may help:

i-protect® new 1.1

- Product for antibacterial surface protection powered by aXonnite® Technology
- For all waterproof surfaces and water-resistant textile
- Long-lasting antibacterial and antifungal effects due to aXonnite® Technology
- Prevents the formation of bio-films

i-protect® new 1.1:

- High efficacy and long-lasting effect of antibacterial and antifungal action
- Prevents the formation of biofilms
- Does not cause discoloration of the surface. Resistant to UV
- Safe for the surface and the user
- Attention, product does not have cleaning properties
- VOC (Volatile Organic Compounds) & Solvent free

Application methods:

Dosage: ready to use, do not dilute
Cleaning frequency: daily or periodic
pH: ca.7
Net contents: 0,5L spray bottle, 1L bottle, 5L canister

Application areas:

all surfaces, including floors, walls, furniture, equipment; recommended for use in areas requiring an increased level of microbiological purity, ie: nurseries, kindergartens, schools, HoReCa, beauty salons, offices, health care facilities and fitness clubs, etc.

i-protect® new 3

- Daily cleaning product for water-resistant floors. Powered by aXonnite® Technology
- Good cleaning performance along with long-lasting antibacterial and antifungal effects due to aXonnite® Technology
- Prevents the formation of a bio-film

i-protect® new 3:

- Daily use ensures long-lasting and effective protection of cleaned surfaces against the pathogens
- Prevents the formation of biofilms
- In the case of machine cleaning, i-protect® new 3 protects against of "spreading" pathogens through the blown air outside the machine
- In the case of hand cleaning, prevents the growth of bacteria and fungi on the mops and buckets

Application methods:

For manual cleaning dilution from 1:20 to 1:100
Cleaning frequency: daily
pH: (concentrate) ca. 8,5, **pH:** (solution 1%) ca. 7,4
Net contents: 1L dosing bottle, 5L canister

Application areas:

PVC, linoleum, vinyl, stone, terracotta, rubber, epoxy resin floors, also floors with polymer coatings; especially recommended for use in areas requiring increased microbiological cleanliness, ie: nurseries, kindergartens, schools, HoReCa, beauty salons, offices, health care facilities and fitness clubs etc.

i-protect® new 5

- Daily cleaner for sanitary facilities. Unique product powered by aXonnite®
- For washroom surfaces and sanitary facilities cleaning
- Long-lasting antibacterial and antifungal effects on cleaned surfaces due to aXonnite® Technology
- Prevents the formation of biofilms

i-protect® new 5:

- Long-lasting and effective protection of cleaned surfaces against pathogens, even between cleaning cycles
- Prevents the formation of biofilms
- Prevents bad smell in sanitary rooms
- Effectively prevents the growth of bacteria and fungi on mops and tools used

Application methods:

Cleaning frequency: daily
pH: (concentrate) ca. 2.
Net contents: 1L dispensing bottle, 5L canister

Application areas:

sanitary facilities, eg. washbasins, bathtubs, toilet bowls, bidets, chrome surfaces, stainless steel, ceramic tiles, floors, walls, glass, plastic (eg. shower cabins).

i-protect® new Z

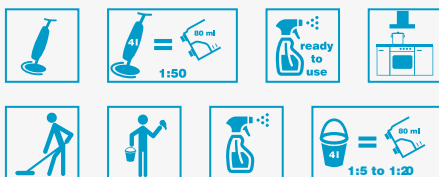

- Revolutionary, Heavy Duty, NONDETERGENT multipurpose cleaner with a power of sanitizer powered by aXonnite® technology
- i-protect® new Z gives truly clean surface, removes tough soil, bio-film, detergent residues, leaving nothing behind to attract dirt plus you get the surface bacteria free!

i-protect® new Z:

- VOC & solvent free
- No oxidizers/bleaching agents (like peroxide)
- No bacteria or enzymes
- Patented ingredients for removing germs and prevents the formation of bio-film
- Removes other cleaners' sticky residue
- Exceeds green testing standards
- Leaves any surface Bacteria Free – permanently
- In the case of machine cleaning, i-protect® new Z protects against of "spreading" pathogens through the blown air outside the machine.
- In the case of hand cleaning, prevents the growth of bacteria and fungi on the mops and pads

Application methods:

Cleaning frequency: daily - QSR, periodic - once a week in other places
pH: (concentrate) ca. 11,4 pH: (solution 1%) ca. 10,5
Net contents: 1L dosing bottle, 5L canister

Application areas:

PVC, linoleum, vinyl, stone, rubber, epoxy resin floor surfaces, as well as surfaces above floor made of plastics, stainless steel, etc.. i-protect® new Z is recommended for cleaning floors and surfaces above floors in areas requiring increased microbiological cleanliness like: nurseries, kindergartens, schools, HoReCa, beauty salons, offices, health care facilities and fitness clubs, etc.

i-protect® new Clean&Fresh

- Environmentally friendly cleaner for glass, mirrors and stainless steel
- Photocatalytic surface treatment purifies the air of odors and harmful pollutants
- Long-lasting antibacterial and antifungal effects. Powered by aXonnite® and Pureti® technology

i-protect® new Clean & Fresh:

- Streak-free cleaner
- Makes surfaces easier to clean
- Improves indoor air quality
- Reduces VOC (Volatile Organic Compounds)
- Ensures long-lasting and effective protection of cleaned surfaces against the pathogens

Application methods:

Cleaning frequency: periodic
pH: ca. 6 - 8,5.
Net contents: 0,5L spray bottle, 5L canister

Application areas:

all glass, mirrors and stainless steel surfaces. Especially recommended for use in places, ie: nurseries, kindergartens, schools, HoReCa, beauty salons, offices, health care facilities and fitness clubs, etc.

Application interval:

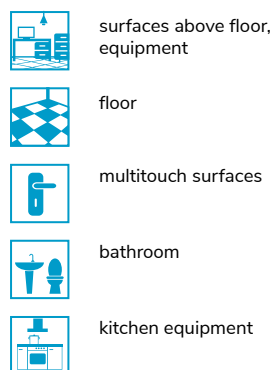

i-protect® Clean & Fresh lasts for up to 3-4 months. Application interval varies depending on environmental conditions.
